

# ELECTRIC HIGHLIGHTS

September 20, 2019

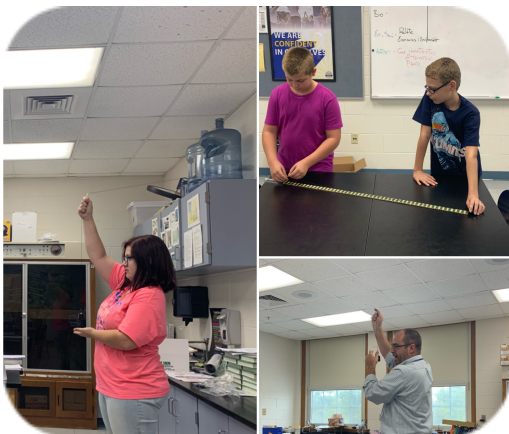

Mr. Michel (Technology Innovation Coach) presented to RES staff this week on how to add students to Apple Classroom. This app for teachers will allow them to view, manage and monitor students' activity while on their iPads.

Duncan Falls Elementary third graders enjoy the new playground equipment installed this year.

Mr. Hilty's (PHS Intervention Specialist Teacher) Career Exploration students participated in "mock interviews" with Mr. King (PHS Assistant Principal), Mrs. Harris (PHS Athletic Director/Attendance Officer), and Mr. Dawson (PHS Principal) to improve interviewing skills.

Mr. Laret's (FLCS Science Teacher) astronomy students applied their knowledge of speed and distance to planetary orbits in their lab this week.

A big thanks to Mrs. Ingram (PJHS Intervention Specialist Teacher) for coming up with great strategies to differentiate instruction for all of her students at PJHS as well as going above and beyond in getting information on our new students and creating a great co-teaching environment.
